Don’t call Pluto a planet (by Les Titford)

(Play two down strums on each chord)

```
Easy Chords C = 0G + 1B + 0e  G7 = 0G + 0B + 1e  F = 2G + 1B + 1e
                     1                       1        3    1    2

Advanced Chords  C = 3A + 2D + 0G + 1B + 0e
                     3    2          1
                G7 = 3E + 2A + 0D + 0G + 0B + 1e
                     3    2                    1
                 F = 3D + 2G + 1B + 1e
                     3    2    1    1
```

Chorus

```
C        G7     C         C
Mercury, Venus, Earth and Mars
C        C         G7   G7
Orbiting round the sun
C        G7      C  C
Jupiter, Saturn, Uranus
C              G7       C             C
Neptune’s the farthest one (FROM THE SUN!!)
```

Verse 1

```
   F            F       C       C
We used to call Pluto a planet
G7        G7     C     C
Out there in the void
       F          F       C        C
Now we don't call Pluto a planet
   C         G7   C     C
We call it a planetoid
```

(Repeat Chorus)

Verse 2

```
F          F     C       C
That's our solar system
G7       G7       C
Planets, eight in all
       F                  C
Now we don't call Pluto a planet
       C        G7       C     C
'cause Pluto is much too small
```

(Repeat Chorus)

Verse 3

```
   F     F     C      C
If Pluto was a person
     G7     G7   C     C
He'd go off in a huff
       F          F        C        C
'cause one minute you're a planet
    C               G7   C        C
and then you're not big enough!!!
```

(Repeat Chorus twice)
